WORK EXPERIENCE

Intern | Laboratory Hidalgo Vicente López
II | **Start date 03/20/2018 – Finish date 07/26/2018**

I did a course to be an intern, in that way I was interning for two months. During that time I learned about what type of analysis it's used to do in water for consumption, what type of microorganism could these contain this, what criteria I must have to be able to perform an analysis precise. Besides I gained skill with the material of laboratory, and the most important to me it's I learned to be more responsible, take care of my job and commits to the quality that the client expects
