

SALVADOR AGUSTÍN FARÍAS TORRES

PROFESSIONAL PROFILE

I'm a responsible individual who values both independent work and collaboration within a team. I take pride in ensuring that all my projects reflect my personal brand and the highest quality standards. I continually educate myself to improve my skills and stay updated in my field as a professional developer.

WORK EXPERIENCE

Translator | Freelance | Start date 09/20/2019 – Finish date 07/26/2022

I After finishing school, I decided to study English because, despite having an intermediate knowledge of the language, I wanted to work in something related to translation. So, I decided to continue studying the language while practicing as a translator. Upon completing my studies, I finally started translating professionally as a freelancer. It was a great experience as it taught me the responsibility of managing my own time, meeting deadlines, and consistently delivering high-quality work. This experience not only improved my language proficiency but also gave me the confidence to tackle complex projects and work with clients from diverse backgrounds.
